OFFICE OF THE DEWAN OF MYSORE,
dated, Bangalore, 6th December 1894

OFFICIAL MEMORANDUM.

Deputy Commissioners of Districts are requested to report as early as practicable, after careful enquiry into the condition of each Taluk and the habits of the cultivators, the period when the cultivation season ordinarily begins in the several parts of their Districts, as regards :—

(1) Dry crops, (2) Wet crops—(*a*) Kartik, (*b*) Vaisakh, and (3) Sugar-cane.

By Order,

T. ANANDA ROW,
Chief Secretary.

To—The Deputy Commissioners of Districts.

READ :—

The following letter from the Deputy Commissioner of Bangalore, dated 11th July 1894, No. 53 :—

Paragraph 8 of Section 36 of the Land Revenue Rules is quoted below for ready reference :—

"When the sale proceeds of a holding which has been forfeited for default in payment of the land revenue due thereupon are not sufficient to meet the arrear, the balance due shall ordinarily be remitted without having recourse to further compulsory process against the defaulter. If the Deputy Commissioner considers there is good reason for proceeding against the other property of the defaulter, he may do so, after recording his reasons for the same."

Arrear to be remitted when a forfeited holding is not sold, but the debt may still be recovered in special cases.

2. I can only consider the following cases as affording a good reason for proceeding against the other property of the defaulter :—

i. When the land has been cultivated by or for the defaulter and has yielded a crop.

and *ii.* When it is proved that the defaulter left the land waste without resigning to prevent others occupying it.

3. Every other case, I would take to be entitled to the remission of the balance.

4. I have the honor to request you to obtain the orders of the Government as to whether I am right. I should not have troubled the Government with this reference ; but as the Government has to sanction remissions, I have thought it right to obtain the orders of the Government on the general principle in order to save correspondence in regard to each individual case, which is inevitable in the event of a difference of understanding between me and the Government.

No. 9618-25—R. 1441, DATED, BANGALORE, 11TH DECEMBER 1894.

ORDER THEREON.—No hard and fast rule can be laid down. Each case must be dealt with on its merits. The principle upon which para 8 of Rule 36 is based, is that if the lands contained in the holding sold are considered by the people to be not worth one year's assessment, they must indeed be of a very poor quality and it is hard to press the defaulter to pay their assessment from his other property ; but if there are circumstances to show that the lands are not so poor as the rule presumes them to be, or that the defaulter did reap, or could have reaped, sufficient produce from them and yet failed to pay their assessment, or that the non-realization of the arrear in the sale is due to causes not connected with the poverty of the soil, the Deputy Commissioner may refuse to recommend the remission of the arrear.

T. ANANDA ROW,
Chief Secretary.

To—The Deputy Commissioner, Bangalore District, with reference to the letter quoted above.
The Deputy Commissioners of other Districts for information and guidance.

No. 9626-35—R. F. 215-92, DATED, BANGALORE, 11TH DECEMBER 1894.

ORDER.—The Government of His Highness the Maharaja of Mysore resolve to issue the following :—

NOTIFICATION.

11th December 1894.

No. 9336—R. F. 215-92,—The Government of His Highness the Maharaja of Mysore direct that after para 6 of Land Revenue Rule XXIII the following be inserted as para 6 A :—

"6 A. The preceding rules contained in paras 3, 4, 5 and 6 shall not apply to lands situated within half a mile of the boundary of any Railway station. In these cases the provisions of Sections 63 and 64 should be strictly enforced.

When an application is made for the appropriation of any land within the limits above specified, for non-agricultural purposes, the Deputy Commissioner should obtain the previous sanction of Government before granting it or imposing any assessment under clauses (*b*) and (*c*) of Section 48 of the Land Revenue Code."

2. After para 7 of Land Revenue Rule XX insert the following as para 7 A : —

"7 A. Within half a mile of the boundary of any Railway station, no unoccupied Government land shall be given for private occupation of any kind without the previous sanction of Government in each individual case."

T. ANANDA ROW,
Chief Secretary.

To—The Deputy Commissioners of Districts.
The Superintendent of Revenue Survey in Mysore.
Mr. B. G. Krishnaiengar, Sub-Division Officer on Special Duty.
The Compiler, Mysore Gazette, for publication of the Notification.

READ :—

The following letter, from the First Assistant to the Resident, to the Dewan of Mysore, No. 4141—103-85, dated 30th November 1894 :—

With reference to the Circular from the Revenue and Agricultural Department, No. 60—115, (Statisticals), dated 22nd December 1892, a copy of which was forwarded with my letter No. 787—282-91 of the 7th March 1893, it is understood that definite instructions are desirable in regard to the manner in which the number of laborers employed on coffee plantations should be calculated. The Government of India accordingly prescribed the following method of calculation :—

Column 3.—The number of persons permanently employed in the estate throughout the year should be entered. For example, if an estate has twenty persons permanently employed, the entry will be 20.

Column 4.—The total number of days arrived at by multiplying the number of persons by the number of days they worked should be divided by the working number of days in the year, and the quotient thus obtained will be the figure to be entered in this column. For example, an estate employed 30 persons for 3 months, 40 for 2 and 100 for 1½ months.—

30 × 90=2,700
40 × 60=2,100
100 × 45=4,500

Total ... 9,600

dividing 9,600 by 365 days in the year, the result is 26, which will be the figure to be entered in this column.

2. As no uniform method seems to be adopted by planters in calculating the cost per acre of the cultivation of coffee, it has been decided that column 11 of the coffee return need not be filled up in future.

No. 9665-72—R. F. 37-92, DATED, BANGALORE, 12TH DECEMBER 1894.

ORDER THEREON.—Communicated to the Deputy Commissioners with a request that the number of laborers employed on coffee plantations may be calculated according to the method prescribed by the Government of India as intimated in the letter read above.

T. ANANDA ROW,
Chief Secretary.

To—The Deputy Commissioners of Districts.

READ :—

The following letter, No. 738, dated 3rd December 1894, from the Secretary, Insurance Committee, to the Chief Secretary to the Dewan of Mysore :—

I have the honor to submit herewith copy of the Proceedings of the meeting of the Insurance Committee held on the 1st instant, for the information and orders of Government.

Proceedings of the meeting of the Mysore State Life Insurance Comittee held at Bangalore on the 1st day of December 1894.

MEMBERS.

Present.

T. Ananda Row Esq., Chief Secretary, in the chair.
A. Ramaswamaiengar, Esq., Deputy Commissioner.
E. R, Subrayer, Esq., Comptroller.
St. Jhon Buchan Esq., Examiner Public Works Accounts.

Absent.

P. Chentsal Row, Esq., President.
Doctor P. H. Benson, Offg. Senior Surgeon.
L. Ricketts, Esq., Excise Commissioner.
A. Sreenivassacharlu, Esq., Muzrai Secretary.

I. Read the statements of cash balance and of proposals received, disposed of, and pending from 1st July to 31st October 1894, of which the following is an abstract :—

The collection on account of premium including the opening balance of Rs. 56,935-9-7 was Rs. 72,686-0-8, against an expenditure of Rs. 4,665-1-1 on account of establishment charges, contingencies, and payment of bonuses, and the balance was Rs. 68,020-15-7 on the 1st November 1894.

The number of proposals received was 314, including 143 proposals that were pending on the 30th June 1894; of which 216 were accepted, 32 rejected, and 66 pending, at the close of October 1894.

Resolution.——Recorded.

II. Resolved that the following be disposed of in the manner noted against each :—

(*a*) Tumkur Amildar's report No. 596, dated 22nd October 1894, requesting to be informed whether Abdul Rahman, Shekdar of Bellari Hobli of his Taluk, may be permitted to submit his proposal now, as he explains that he was not aware of the Government orders fixing the time for the insurance of old officials up to end of June 1894, as the same was published in the Gazette in English.	This application may be accepted with Government sanction. The Government should be moved to extend the time for the insurance of old officials for another year from the date of expiry of last sanction, *i. e.*, up to end of June 1895.
(*b*) A memo for orders on the subject of admission or otherwise of the proposal of B. Venkataramanaiya, Gumasta of Arkalgud Sub-Registry Office, which was received after 30th June 1894.	The proposal should be admitted as coming from a "new servant," as the proposer was borne on the permanent establishment since 1st April 1892, which was after the introduction of the Insurance Rules.
(*c*) Draft Report of Administration of the Insurance Scheme for the year 1893-94.	To be accepted and submitted to Government. If possible, the figures given in para 7 of the report be compared with corresponding figures of the Oriental and other Companies.

No. 9719—R. 1454, DATED, BANGALORE, 12TH DECEMBER 1894.

ORDER THEREON.—Recorded.

T. ANANDA ROW, *Chief Secretary.*

To—The Secretary to the Mysore State Life Insurance Committee, Bangalore.

READ AGAIN :—

Government Proceedings No. 13101-9—R. F. 154-93, dated 6th February 1894, ruling that no new unoccupied lands can be granted on the "grass rate of 4 annas per acre."

No. 9767-75—R. F. 154-93, DATED, BANGALORE, 13TH DECEMBER 1894.

ORDER THEREON—The Government are pleased to make the following addition to the 2nd sentence ending with the word "assessment," in line 3 of para 4 of the Proceedings read above :—

"at coffee, or dry or wet rates as may be fixed by the Survey Department, or the Deputy Commissioner."

2. Thus amplified, para 4 of the above Proceedings will stand as follows :—

"4. No new unoccupied lands can be granted on this special tenure. All lands "newly to be taken up must be granted with full rights of occupancy and upon "the full or proper assessment at coffee, or dry or wet rates as may be fixed by "the Survey Department, or the Deputy Commissioner. The grass tenure, "Deputy Commissioners will observe, does not convey full rights of occupancy, "for it reserves in full to the Government all rights to reserved trees and "minerals and to increased assessment when brought under cultivation."

T. ANANDA ROW, *Chief Secretary.*

To—The Deputy Commissioner, Kadur District
The Deputy Commissioners of other Districts.
The Superintendent of Revenue Survey in Mysore.

READ.—

Letter No. 1146, dated the 18th April 1894, from the Deputy Commissioner, Mysore District.

No. 9877-85—R. 1489, DATED, BANGALORE, 14TH DECEMBER 1894.

ORDER THEREON.—With the above letter, the Deputy Commissioner submits copies of communications noted on the margin from the Chief Engineer, prohibiting the employment of Tank Inspectors and Sub-Overseers on work other than the execution and supervision of works under the Minor Tank Restoration Scheme, and solicits sanction to their services being utilized conveniently and without prejudice to their legitimate duties for inspection and supervision of the Government works undertaken in the Local Fund, Revenue, and Muzrai Departments.

Nos. 4521 and 2670, dated respectively the 5th October 1893 and 3rd April 1894.

2. Government observe that the Tank Inspectors and Sub-Overseers have quite enough to do in discharging their own legitimate duties, and if they perform these duties properly, they are not likely to have any time left for other duties. The work (other than tank work and inspection) to which the Deputy Commissioner refers should be dealt with, as before the appointment of Tank Inspectors and Sub-Overseers.

T. ANANDA ROW,
Chief Secretary.

To—The Deputy Commissioner of the Mysore District.
The Deputy Commissioners of other Districts.
The Secretary to the Government of Mysore, Public Works Department.

READ:—

Letter from the Chief Engineer of Mysore, dated 21st September 1893, No. 4217, recommending modification of para 4 of section X of the Revenue Rules to prevent inconvenience caused to Public Works Department Officers and their contractors by the provision therein that the permission of the Deputy Commissioner should be obtained before removing earth, stone, &c., from beds of rivers, nalas, or public tanks or from any unassessed land or unoccupied assessed land.

No. 10303-11—R. F. 147-92, DATED, BANGALORE, 18TH DECEMBER 1894.

ORDER THEREON.—Under the circumstances brought to notice, Government are pleased to sanction the following amendment of para 4 of section X of the Revenue Rules, namely:—

(1) after the word "Municipalities" insert the words "or their contractors if specially authorized by them to do so";

(2) omit the words "with the permission of the Deputy Commissioner, and" after the word "may"; the words "to his supervision and" after the word "subject"; and the words "whether such works be constructed departmentally or by contract" at the end of the para; and

(3) after the words "public utility" add the words "but the Deputy Commissioner may prohibit the removal of the materials under this rule from specified localities, or impose such conditions as may be considered proper."

2. Para 4 of Rule X as now amended will read as follows:—

"The Local Funds, Public Works, and other Public Departments and Municipalities, or their contractors if specially authorized by them to do so, may, subject to the payment of such royalty as may be prescribed by Government, remove earth, stone, kankar, sand, muram and other material, from the beds of rivers, nalas, or public tanks, or from any unassessed land or any unoccupied assessed land not assigned for special purposes, for Government works or works of public utility, but the Deputy Commissioner may prohibit the removal of the materials under this rule from specified localities, or impose such conditions as may be considered proper."

3. The above amendment will be published in the Mysore Gazette.

L. ANANTASAMI RAO,
For Chief Secretary.

To—The Chief Engineer in Mysore.
The Deputy Commissioners of Districts.

READ :—

Registers of "Revenue Deposits" at the several treasuries in the Districts received from the Comptroller to the Government of Mysore, for the quarter ending 31st December 1893.

Letter No. 752, dated 4th December 1894, from the Secretary to the Mysore State Life Insurance Committee, forwarding an extract from the Proceedings of the Committee, dated 1st idem, and requesting sanction to extend the period for the insurance of old officials up to the end of June 1895.

No. 10474-500—R. F. 101-93, DATED, BANGALORE, 20TH DECEMBER 1894.

ORDER THEREON.—On the representation of a Shekdar in the Tumkur District that he was not able to avail himself of the extension of time allowed in notification of the 24th January 1894 for submission of applications for insurance as the notification was not issued in Kanarese, the Insurance Committee recommend a further extension of the time up to the end of the current year.

2. Government are pleased to sanction the proposal, and direct that the accompanying notification be published in the Gazette both in English and in Kanarese.

3. Heads of Departments are requested to give full publicity to the notification above referred to.

NOTIFICATION.

No. 10501—R. F. 101-93, *Dated, Bangalore, 20th December* 1894.

Government are pleased to extend, up to the end of the current year 1894-95, the period allowed in notification of the 24th January 1894, No. 11945—R. F. 101-93, for submission of applications for the insurance of the lives of public servants of the State entertained before the 1st December 1891.

Public servants who wish to avail themselves of the option of assuring their lives under para 4 of the Mysore State Life Insurance Rules of 27th October 1891, are hereby informed that their applications, signed and submitted in the manner prescribed in para 17 of the Rules, should reach the proper officer of Government on or before the 30th June 1895, after which date no applications from them will be entertained.

No. 10502-9—R. F. 137-93, DATED, 20TH DECEMBER 1894.

ORDER THEREON.—Government consider that no change in the existing system of collecting tax on lime kilns is called for. The system of renting the right of collecting lime stone is harassing to the persons engaged in the trade, and Government are not disposed to sanction it. The Deputy Commissioner should report the authority under which the right of collecting lime stone in the French Rocks Sub-Division was sold by public auction.

Letter No. 76—63, dated 26th July 1894, from the Deputy Commissioner, Chitaldroog District, to the Chief Secretary to the Government of Mysore.

In forwarding for perusal Yadi No. 6, dated the 7th instant, received from Mr. B. G. Krishnaiengar, Special Officer in charge of Irrigation Wells, I have the honor to solicit instructions as to the correctness or otherwise of the construction placed by him upon the expression "arrears of revenue" employed in para 2 of Section 16 of Notification No. 183, dated 21st July 1891.

2. Mr. B. G. Krishnaiengar thinks that when a default is made, interest is recoverable in the same way as interest is recovered on arrears of revenue. But in my opinion, this interpretation of the phrase is not correct. There is no provision made in that section regarding the levy of interest. Moreover Section 18 of the same notification makes interest recoverable from the date of the issue of a loan order after completion of the work. Para 2 seems only to prescribe the procedure to be adopted in making recovery of the money advanced, such as notice, attachment, &c.

Abstract of the Yadi of Mr. B. G. Krishnaiengar, dated 6th July 1894, No. 6.

Para 2 of Section 16 of Government Notification No. 183, dated 21st July 1891, directs that when persons fail to execute well works according to the terms of their Mutchalika, the advances made to them be recovered as arrears of kandayam with interest at one pie per rupee per month. If this small rate of interest be remitted, persons would lose earnestness and the works would be left incomplete. It therefore seems necessary that interest should be levied.

2. In the case under notice, the applicant has failed to act up to the terms of his Mutchalika, and owing to his negligence the work is left incomplete. Orders may therefore be issued to the Taluk at the discretion of the Deputy Commissioner for the levy of interest.

No. 10607-16—R. 1597, DATED, BANGALORE, 20TH DECEMBER 1894.

ORDER THEREON.—The Government agree with the Deputy Commissioner. When default is made and the amount of the preliminary advances given remains to be recovered as an arrear of revenue under the rule quoted above, no interest should be charged.

ORDER THEREON.—Under the circumstances represented, Government are pleased to sanction the following addition to Rule XVI after the words "the remainder of the loan, if any, may be advanced" :—

"If however it becomes impossible to complete the well within the sanctioned loan, an application for an additional loan may be made after the amount originally applied for and obtained, has been fully expended. On receipt of such application, the work done should be measured and the cost estimated. After satisfying himself that the further loan applied for, or a portion of it, is necessary for the proper completion of the well, the Divisional or other Officer appointed for the purpose may sanction the payment of such loan in such instalments as he may deem proper provided however that the conditions of rules 2, 5, and 6 are not infringed."

2. Rule XVI as amended will be as follows, and it will be published in the Mysore Gazette.

16 "On receipt of an application, the Amildar shall inspect the land and make summary enquiry in the village as to the correctness of the entries in the application, and shall report whether the land will be commanded by the well; and what will, judging from that of like land in the neighbourhood, be the market value of the land if the well is successful. The report shall be transmitted to the Divisional or other Officer appoint-

"ed for the purpose, who shall examine whether the loan can be made "under the rules, and, if no objection is found, shall accept the application "and order the Amildar to advance one-third or half the amount of the loan "applied for, after taking an agreement from the applicant to the effect that "the money received shall be applied to the purpose intended, and that a sub- "stantial and properly constructed well in full working order shall be completed "within the time allowable for the execution of the work. Such time shall "ordinarily be six months, but in case of loans exceeding Rs. 300, the Officer "granting the loan may extend it to one year. When the first instalment of "the loan advanced is expended, the applicant may apply to have the work "measured and estimated, and, if work is found to have been done to the "value of the first instalment, a second, not exceeding one-third or half the "loan applied for, may be advanced; when work for this amount also has been "executed, the remainder of the loan if any, may be advanced. If however "it becomes impossible to complete the well within the sanctioned loan, an "application for an additional loan may be made after the amount originally "applied for and obtained has been fully expended. On receipt of such appli- "cation, the work done should be measured and the cost estimated. After "satisfying himself that the further loan applied for, or a portion of it, is neces- "sary for the proper completion of the well, the Divisional or other Officer ap- "pointed for the purpose may sanction the payment of such loan in such in- "stalments as he may deem proper, provided however that the conditions of "rules 2, 5, and 6 are not infringed. No interest will be charged on the instal- "ments thus advanced. If default is made in the construction of the well, the "amount of the preliminary advances authorized by this rule will be recover- "able from the applicant as arrears of revenue. But when the work is not "completed, having had to be abandoned owing to causes beyond the appli- "cant's control, such as no water being found, the expenditure incurred shall "be borne by Government."

No. 10456-65—R. 1576, DATED, BANGALORE, 20TH DECEMBER 1894.

ORDER THEREON.—The Resolutions of the Government of India refer to the method to be adopted for the calculation of the areas of crops sown as mixtures in the same field. The areas of such crops are now shown in the accounts according to the estimate made by the Shanbhogs of villages when Village Form No. 7 is prepared. The Government of India wish that in future, such areas should be calculated according to certain formulæ prepared by the Director of Agricultural Department in consultation with District Officers, and that no attempt should be made by the village officers themselves to separate the areas of the component crops.

2. The Resident will be requested to obtain the formulæ prepared for the adjoining Districts of Bombay and Madras. Meanwhile the Deputy Commissioners are requested to report:—

(1) the several descriptions of crops which are generally sown together in one and the same field.
(2) in what proportions they are sown.
(3) the suggestions they have to make to determine the formulæ to be adopted.

3. The Superintendent of Revenue Survey and Settlement will also be good enough to favor the Government with his remarks on the subject.

4. Copies of the Government Resolutions are appended.

Dr. Voelcker's preliminary report on the improvement of Indian Agriculture.

Proceedings of the Agricultural Conference held at Simla in October 1890.

Circular to Local Governments and Administrations, No. 2—25-1, dated the 30th January 1890, relative to the above.

RESOLUTION.

The Government of India have now received copies of the report prepared by Dr. Voelcker, who was deputed in 1889-90 to investigate the conditions of agriculture in India; and the opportunity is taken in circulating them to Local Governments and Administrations to explain the position which the report occupies in the development of the scheme undertaken in 1880-81 for agricultural enquiry and improvement.

2. One of the chief recommendations made in the report of the Famine Commission in 1880 was the formation of Agricultural Departments, of which the ultimate aim was to be the improvement of Indian agriculture. In 1881, the Imperial Department of Revenue and Agriculture was created for the purpose of directing the policy to be followed in carrying out the Famine Commission's recommendations; and in December of that year a Resolution was issued in which a comprehensive scheme, based on the suggestions of the Famine Commission, was drawn up. The Resolution commenced by explaining that before any attempt could be made to improve the agriculture of the country, it was necessary to enquire into, and collect information regarding the agricultural conditions in each Province.

No. 6-340-350-G., dated the 8th December 1881.

3. The first step to be taken in this direction was to organize the land-record establishments, and during the twelve years which have since elapsed, these establishments have in most provinces been brought into fair working order, so that they can now be utilized for the collection of facts and statistics.

4. Another measure was to constitute a system of scientific enquiry by means of experts in those branches of investigation which were beyond the scope of the ordinary establishments. With this object there have been successively established the office of Reporter on Economic Products and the Civil Veterinary and Bacteriological Departments. The Departments of Meteorology and Geology already existed, but the attention of both has been called more distinctly than before to the work of practical investigation. At the same time the Trustees of the Indian Museum have consented to carry out through their staff enquiries connected with Economic Entomology and Zoology; while the Botanical Survey, previously restricted to three Provinces, has been extended over the whole of India.

5. None of these Departments or institutions, however, were connected with agriculture proper, and from 1882 to 1888 representations were made to the Secretary of State that the scheme of enquiry could not be completed without an

agricultural expert, who should organize and develop a system of agricultural investigation in those directions in which scientific control was wanted. In 1889 Dr. Voelcker was sent out to India by the Secretary of State—"to advise on the best course to be adopted in order to apply the teachings of Agricultural chemistry and in order to effect improvements in Indian agriculture." Dr. Voelcker's preliminary recommendations led to the appointment, in October last, of an Agricultural Chemist, who with the aid of a Laboratory Assistant, appointed at the same time to teach in the Forest School at Dehra, will take the position of the expert asked for by the Government of India.

His duties will be necessarily concerned with a larger field than that implied by the term "Agricultural Chemistry," and it is one of the objects of the present Resolution to indicate to some extent what the duties and functions of Agricultural Chemist will be.

6. In the detailed report now submitted Dr. Voelcker makes numerous recommendations in the direction of agricultural improvement and reform, many of which cover the same ground as those of the Famine Commission. His suggestions come indeed mainly within the scope of the programme set out in the Resolution of 1881, to the principles of which the Government of India still adhere as forming the basis of the scheme of agricultural enquiry and improvement: and, although his suggestions point, as did the Resolution of 1881, to the ultimate establishment of positive measures for improvement, they do so with the same proviso that "before any real improvements can be effected in agriculture the institution of organized enquiry into existing methods is absolutely necessary." The Government of India desire, therefore, that for the present the main duty of the Agricultural Chemist should be to take his place in the scheme of enquiry rather than to institute what may prove to be premature efforts in the direction of agricultural improvement.

7. It will in the first place be necessary for the Provincial Departments of Agriculture to carry out more effectively than has hitherto been done, the instructions for establishing the system which in the Resolution of 1881 was briefly designated as "district analysis." This subject was discussed at the Agricultural Conference held in 1890 at Simla, but has not as yet been fully understood. The object of the scheme was to define with some precision, through the aid of the statistics collected by the land-records agency, the tracts in each district which are subject to failure, or, to use the words of the Resolution, in which the "agricultural operations of the country are liable for any reason to fall below the standard of full efficiency." When some progress has been made in a careful analysis of agricultural tracts, the expert will be usefully associated with the Agricultural Departments in investigating the causes of failure and in suggesting the remedies to be applied. As soon as this stage has been reached, the greater number of those recommendations of the Famine Commission and Dr. Voelcker which deal with positive measures of remedy and improvement, will have to be taken under serious consideration: and, although it may be the case that in some directions enquiry has proceeded sufficiently far to justify immediate action, especially in tracts where agricultural depression is extreme, yet there is no doubt that in the main a considerable period must still be occupied in the preliminary work of investigation.

See also Circular No. 55-R., of the 8th May 1885.

8. Another branch of enquiry is concerned with the existing methods and practices of agriculture throughout India. This will be entrusted primarily to the Agricultural Chemist. It will involve the collection and collation of facts and statistics contained in gazetteers, settlement reports, and other such sources of information, and will require both personal investigation in the field and continual communication with the officers of the Agricultural Departments.

9. The necessity of ascertaining by continuous and scientifically-directed trial on experimental farms what are the possibilities of improving existing methods was indicated in the Resolution of 1881, and measures have been taken in almost every province to establish farms for this purpose. The inspection of farms; the general direction of the system on which experiments are to be conducted; and the preservation of continuity in experiment will be further and important duties of the new officer.

10. The scheme of agricultural enquiry will also entail a systematic analysis of soils, water, manure, etc., in the laboratory, and these will be conducted by the Agricultural Chemist and the Assistant.

11. It will at the same time be essential that with the co-operation of the Educational Departments measures should be taken which will render the agricultural population capable of assimilating new ideas and of understanding any suggestions made to them, as time goes on, for the improvement of their agricultural methods; and which will qualify them to take that active part in the scheme of agricultural reform without which no effective results can be expected. The necessity of adapting the educational system to the requirements of the agricultural population was not dealt with in the Resolution of 1881. The Government of India however, in the 25th paragraph of the Resolution on Education, issued by the Home Department in June 1888, recommended that this subject, among others, should in each province be brought under the consideration of a Committee. The question of agricultural education was also discussed in a valuable note submitted by Mr. F. A. Nicholson to the officers who reported in May 1889 on the Agricultural Department of the Madras Presidency. In that note Mr Nicholson urged that in developing the efficiency of an Agricultural Department it would be necessary to consider "what "means will render its operations more efficient by promoting the intelligence and "receptivity of the raiyat, by developing the agents rather than the mere methods of "production, and by provoking them to take the initiative instead of waiting for an "impluse *ab extra*."

12. The Government of India, while placing their views before Local Governments and Administrations, do not desire to communicate in any more precise form their instructions regarding Dr. Voelcker's report until they have had the opportunity of referring the questions raised to an Agricultural Conference, at which Local Governments and Administrations should be fully represented. They have accordingly determined that a Conference shall be held at Simla on the 2nd of October next, for the purpose of considering the definite measures which should be suggested for adoption and of determining the part to be taken in them by the Agricultural Chemist. It is anticipated that the proceedings of the Conference will be brought to a conclusion within a week from the date on which they commence.

13. The special subjects to be brought under consideration at the Conference will be those mentioned in paragraphs 4 to 11 above, namely :—

(i) the completion of the scheme of investigation by scientific experts (paragraph 4),
(ii) the further development of "district analysis" (paragraph 7),
(iii) the compilation of a gazetteer of existing agricultural methods (paragraph 8),
(iv) the conduct of experimental farms (paragraph 9),
(v) the system to be adopted in arranging for the analysis of soils, water, manure, etc., (paragraph 10),
(vi) agricultural education (paragraph 11).

The opportunity will also be taken to consider, in consultation with the officers of the Civil Veterinary Department at head-quarters, the subjects of the prevention and cure of cattle-disease, and the further promotion of horse-breeding.

14. If any Local Government desires that other subjects dealt with in Dr. Voelcker's report should be specially discussed by the Agricultural Conference, the Government of India will be glad to make arrangements accordingly; but they are of opinion that the particular consideration of subjects other than those mentioned in the last paragraph may, generally speaking, be usefully deferred until further advance has been made in the direction of agricultural enquiry. These instructions are not in any way intended to preclude the consideration by Agricultural Departments of matters connected with the improvement of agriculture in cases where urgent or early measures are called for, or to deprecate any action by Local Governments and Administrations which it may be deemed by them inexpedient to postpone. As at present advised, the Government of India are disposed to believe that in cases of this kind the recommendations included in Dr. Voelcker's report will be found to be in general accord with the approved policy of the Provincial and Imperial Governments, and may properly be quoted in support of such measures as it may be thought necessary to adopt in the interests of agriculture without further delay. But they do not propose that the Conference now summoned should itself attempt to deal with those portions of Dr. Voelcker's report which are concerned with the final rather than the initial stages of the scheme.

15. Local Governments are invited to depute to the Conference the Directors of the Agricultural Departments and any other officers whom it may be thought advisable to send, and to provide them with any instructions which it may be considered necessary to give in connection with their own views on the subjects to be discussed. In conclusion the Government of India desire that they may be provided before the 1st of September next, with the names of the officers delegated, as well as with a statement of subjects other than those named in paragraph 13 which it may be desired to have brought under discussion.

ORDER.—Ordered, that the above Resolution be forwarded to the Local Governments and Administrations and officers noted in the margin, for information and guidance, and to the Chief Commissioners of Ajmere and Coorg for information.

Circular No. 5—80, Rev. & Agri. Dept.—Statistics, dated, Simla, the 16th August 1893 *from* Sir E. C. Buck, K.C.S.I., *Secretary to the Government of India, to Local Governments and Administrations.*

SIR,

The attention of the Government of India having been drawn to the necessity of requiring some uniform method to be adopted for the calculation of the areas of crops sown as 'mixtures' in the same fields, as well as to the desirability of eliminating 'mixtures' from all important statistical returns, I am to intimate, in continuation of Circular No. 4—21 (Agriculture), dated 22nd June 1893, that the subject will be one of those discussed at the Agricultural Conference in October. In the meantime the following method is suggested as suitable, and will be put forward at the Conference as the basis of discussion.

2. Important 'mixtures' such as 'wheat and barley' will be entered in the village registers as 'mixtures,' no attempt being made by the village officers themselves to separate the areas of the component crops. The subdivision of areas will be made in the central offices on formulæ supplied to them. An appropriate formula for each crop will be prepared for every district or homogeneous portion of a district by the Director of the Agricultural Department in consultation with the District officers.

3. Unimportant mixtures such as 'peas and pulse,' or mixtures, for which no formula is likely to be appropriate on account of the absence of uniformity in the proportion of the component crops or for any other reason, will not be recorded in the village registers as 'mixtures,' but as single crops, the village officer deciding the proportionate areas in each case as best he can on his own estimates.

4. For example, if a formula has been prepared showing the proportion of area which wheat and barley may be assumed respectively to cover when grown together, the heading 'wheat and barley' would be one of the headings prescribed for the village returns, and all fields containing both crops would be shown under that heading. If in the case of peas and pulse no such formula has been prepared, there would be no heading for 'peas and pulse,' and the village officer would, on inspection of the fields, enter separately the portions of the areas under the mixed crop which he might estimate to be under 'peas' and 'pulse' respectively.

5. The formulæ suggested in paragraph 2 will have to be based upon rough and general data. In tracts in which it is the custom to grow the component crops in distinct rows at normal distances, the determination of the formula will be easy. In other cases it will probably be based on information obtained by enquiry as to the usual proportion of seed sown and by enquiry or experiment as to the usual proportion of produce obtained.

Circular No. 9—28. Rev. & Agri. Dept.—Statistics, dated, Calcutta, the 26th February 1894, from E. D. Maclagan, Esq., C. S., Under-Secretary to the Government of India, to Local Governments and Administrations.

SIR,—IN continuation of this Department's Circular No. 50—80, dated 16th August 1893, I am directed to inform you that the subject of 'mixed crops' was discussed at the Agricultural Conference of October 1893, and it was then determined that the system proposed in my Circular of 16th August should be recommended.

It was also suggested by the Conference that no mixtures should be shown as such in the crop returns submitted to the Central Provincial Office; and that in district returns they should be divided into their constituent parts either initially by the village officers (paragraph 3 of my Circular of 16th August) or subsequently by the district staff, in accordance with such methods as may be arranged on the advice of the Director of Agriculture (paragraph 2 of my Circular of 16th August).

In these recommendations and suggestions the Government of India agree, and I am to request that, with the concurrence of instructions may be issued for the adoption—where not already in force—of the system proposed in my Circular of the 16th August last.

2. There is a difference of Rs. 4,577 under Land Revenue between the closing and opening balances of the Bangalore District. The Deputy Commissioner explains that the difference under Land Revenue and under other heads was due to the submission of the accounts for the month of June 1894 before closing the annual accounts.

3. The figures in the above statement are those given in the annual accounts which slightly differ from those given in the monthly Demand, Collection and Balance statements in consequence of corrections of errors and adjustments.

4. Government observe that in the Kolar and Mysore Districts, the *arrears of Mohatarfa Revenue at the close of the year under review were heavy. Endeavour should be made to collect them as soon as possible.

(9) Ditto Deputy Commissioner, Chitaldroog District, No. 229, dated 16th September 1893.

No. 10052-90—R. 1507, DATED BANGALORE, 17TH DECEMBER 1894.

Government resolve to review such portions of the Reports read above as relate to Land Revenue, Mohatarfa, Sayer, Salt and Stamps. The other portions will be dealt with separately.

2. *Season and Rainfall.*—The year Nandana (1892-93) was one of agricultural prosperity. The rains were seasonable and the total quantity of rainfall in all the Districts was on the whole greater than in the previous year, although in certain isolated tracts of the Tumkur District and in Arsikere and Channaráyapatna of the Hassan District, wet cultivation suffered slightly from insufficient and scanty rain. In the Malnád Taluks, the rains were excessive and slightly damaged the Supári crop.

3. The quantity of rain-fall returned from the Taluks during the year 1892-93 will be found in Appendix No. 1, and the averages by Districts for the four rainy seasons are compared with those for the preceding year in the following abstract:—

4. *Area under crop.*—The annexed statement shows the total area under crop of each kind during the past year, comparing favorably with the like statistics for the year preceding, with an excess of 386 thousand acres. The bulk of the increase is under food grains. The increase under oil-seeds is also considerable. The favorable character of the season seems to have given an unusual stimulus to extra agricultural enterprize, and a fair start was made in tea also, for which comparatively new industry, no less than 2,400 acres were taken up in the Kadur District. The area returned under vegetables was worse by 10,000 acres, due to the same causes which exert a favorable influence on other kinds of cultivation. In propitious seasons with timely and plentiful rains, raiyats usually raise a grain crop in fields in which only an inferior crop could be attempted at other times.

5. *Average yield of crops.*—The table No. 2, attached to the Appendices, exhibits the estimated yield in lbs. of the various kinds of food grains, &c., per acre of cultivated land in each District. The approximate out-turn of rice and ragi, which form the staple food in the Province, is subjoined as contrasted with the results for 1891-92:—

District.	Rice.		Ragi.

Average ...	692	**1,024**	669	**854**

6. The variations which the above figures indicate are apparently not real and are due to incorrect estimates. Separate instructions will be issued for estimating the yield in terms of annas instead of lbs.

7. *Prices.*—The attached statement contains details of the prices of produce, &c., which ruled in the last year. The rates for the most principal food crops, *viz.*, rice and ragi, are given below for ready reference, together with those current in the previous twelve months.

District.	Rice per maund.		Ragi per maund.	
	1891-92.	1892-93.	1891-92.	1892-93.
	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.

Chitaldroog	5 0 0	**4 0 0**	2 0 0	**1 5 4**

The good rainfall which characterized the period under review served to relieve the tension in the market and to lower the prices of the principal food-grains, rice and ragi in particular, in all the Districts.

8. *Agricultural, &c., stock.*—The agricultural stock, &c., returned for the Province for the past year are summarized in the subjoined table, compared with the like statistics for the corresponding period preceding.

	1891-92.	1892-93.	Difference.
Cows and bullocks	2,910,005	**3,048,716**	+138,711
Sheep and goats	2,496,341	**2,569,355**	+73,014
Buffaloes	493,412	**495,873**	+2,461
Ploughs	683,357	**690,716**	+7,359
Carts	111,078	**123,916**	+12,838
Horses and ponies	21,273	**23,855**	+2,582
Donkeys	46,010	**47,312**	+1,302
Pigs	47,594	**34,844**	—12,750

9. It is perhaps not quite possible to ensure absolute precision in the statistics under this head, but taking the above results as approximating the actuals, it is satisfactory to note that the general prosperity of the season has further been illustrated in the increment to the live-stock. It is doubtful, however, whether the above include the cattle, &c., of the urban parts, such as the District Head-quarters and other municipal towns, which also shelter large numbers of live-stock; for no systematic enumeration is apparently made therein. The matter requires elucidation in future reports.

10. ***Mortality among cattle.***—The returns of mortality among cattle of various kinds are abstracted in the following for the whole Province :—

	1891-92. (12 months.)	1892-93.
Cows	49,025	**22,056**
Bulls and bullocks	28,520	**16,248**
He-buffaloes	7,353	**4,324**
She-buffaloes	13,347	**6,917**
Sheep and goats	57,713	**44,686**
Horses	1 049	**699**
Asses	1,777	**1,580**
Total loss ...	158,784	**96,510**

11. The aggregate loss from all causes was 62,274 or 39·2 per cent less than in the year previous, when an unusually large number appears to have succumbed to the drought then prevailing.

12. *Wages of Labor.*—The wages of labor, skilled and unskilled, remained stationary in all the Districts but Bangalore, Kolar and Hassan, where from the increased demand for labor on large works of improvement, public and private, the rates for skilled work rose, notably in the two latter Districts. The wages for unskilled labor have likewise risen in Chitaldroog, probably on account

of the railway and Government works undertaken in that District. The rates for the past and the previous years are given below by Districts :—

13. *Vital Statistics.*—The statistics of Births and Deaths are culled from the mortuary returns, furnished by the Senior Surgeon, and show that there were 89,332 births registered throughout the Province during the past year, as against 99,400 in the year preceding; the ratio of the former being 18·44 per mille of the total population as per the census of 1891, against 20·52 in the previous year.

14. The deaths registered during the same period numbered 84,064 or 17·36 per mille of the censused population, as against 71,581 deaths or 14·78 per mille for the previous 12 months. Though there was thus an excess of 5,268 births over deaths during the year under review, yet, compared with the figures for 1891-92, the results are not satisfactory.

15. The principal causes of the recorded deaths are noted below, with the figures for 1891-92 alongside :—

	1891-92.	1892-93.
Cholera	1,747	**668**
Small-pox	6,267	**7,754**

16. *Government and Inam Villages.*—The total number of Government and Alienated villages stood as below at the end of the past and of the preceding years :—

Year.	Government villages.			Alienated or Inam, &c., villages.				Total Government and Inam villages.
	Primary villages.	Hamlets.	Total.	Jódi.	Kayamgutta.	Sarva Inam.	Total.

1892-93 ...	17,082½	11,278	28,360½	1,569½	601	1,036	3,206½	31,567
Difference. Less	132	156	288	9	2	22	33	321

The differences in the numbers are due to correction of errors, and not to the formation of new villages or creation of new inams.

17. *Government Holdings.*—The gross area of Raiyatvári lands under occupation during the year 1892-93 was—

	Acres.	Assessment.
In 1891-92	5,685,160	79,15,133
In 1892-93	5,891,268	82,22,261
Showing an increase over the previous year of	206,108	3,07,128

The following abstract statement exhibits the division of the above area and assessment into dry, wet and garden. Further details for each District for the two years under question will be found in Appendix No. 8 :—

18. To the total increase in the lands brought under occupation during the last year, every District contributed its share as indicated in the margin; the details of occupied dry, wet and garden lands in *each District* are given in the annexed table. The largest increase occurred in the Tumkur District, whilst Chitaldroog was next best in this respect.

21. In the case of garden lands resigned, no District, except Tumkur, Hassan and Kadur, has furnished the particulars of "Supári," "Cocoanut," "Betelnut," &c., as required by Government Proceedings No. 349[illegible]—Cir. 59, dated 14th July 1890. It is hoped that the omission has only to be pointed out not to be repeated in future returns.

22. The area of wet lands under each source of irrigation (excluding sugar-cane and mulberry, for which the sources of water supply are not mentioned in the returns received) during the year 1892-93 is particularized below :—

23. In the matter of transfer of Paṭṭás, the Government have again to draw the special attention of the Deputy Commissioners to the remarks in para 23 of the Review on the Revenue Administration Reports of 1891-92, which are reproduced here, in order that the particulars called for may be duly furnished in future Nagadiyát Returns, as therein requisitioned :—

"In discussing transfers of Paṭṭás, it would be interesting to explain how "many transfers were from agriculturists to non-agriculturists, how many from

"agriculturists to agriculturists and how many from non-agriculturists to agri-
"culturists, &c. * * *
"In future, details of transfers of Pattás should be separately given and the
"figures under 'Other Causes' should also be particularized at foot of the Nagadi-
"yát returns."

24. *Remissions.*—The table underneath exhibits the remissions made by Deputy Commissioners during their Jamabandi and those specially ordered by Government for the year 1892-93, as compared with those for 1891-92:—

Particulars.	Remissions allowed under defined rules and excluded from the year's Jamabandi.	Remissions granted out of the net demand for the year.	Total amount written off the accounts for 1892-93.	Total for 1891-92.

(b) *Hulbanni.*—Remission specially granted in the above mentioned Districts, as well as in Bangalore, Kolar and Mysore, which suffered most from drought in 1891-92. The amount was deducted as a refund from the patti bériz of 1892-93, as a portion of the Hulbanni tax had previously been collected	20,990 3 7	13,019 3 0
	Rs. 34,009 6 7	

25. *Land Revenue.*—The total Land Revenue Demand under Raiyatvári for 1892-93 was Rs. 80,58,604,* as against Rs. 77,65,028 for the year before, showing an increase of Rs. 2,93,576. Adding to it, the items composing Land Revenue Miscellaneous, as specified in the subjoined table, the total Land Revenue amounted to Rs. 9,505,117 :—

Total ...	91,49,520	**95,05,117**	+3,55,597 Net increase.

26. It will be seen from the above that, of the total increase of Rs. 3,55,597 under all heads of Land Revenue, about 82 per cent is that derived from the Raiyatvári assessment, due as already stated to the expansion of cultivation, which marked the year under notice. The same cause contributed to a further increase of Rs. 62,000 (or 17·4 per cent of the increase) in the sale proceeds of the right of occupancy.

The variations in the other items are small and do not call for remark.

27. The subjoined figures show the Land Revenue Demand *by Districts* for the year under review, compared with the previous year :—

28. The total Demand, Collection, and Balance under "Land Revenue" are particularized by Districts in the subjoined comparative abstract for the past two years:—

29. As regards the ratio of uncollected balance to the year's demand, the results are no less satisfactory, inasmuch as every District shows a much lower proportion of outstandings at the end of the year under review than at the close of its predecessor. These facts bear a favorable testimony to the exertions of the District authorities in their collection work. Of all the Districts, the collections in Chitaldroog and Tumkur are the most satisfactory.

30. *Mohatarfa.*—The next source of revenue requiring notice is Mohatarfa or Assessed taxes. The gross income derived from them during the year under review was Rs. 4,10,061-13-7. From this, a sum of Rs. 75,281-5-7 has to be struck off on account of the quota transferred to minor Municipalities, and the balance of Rs. 3,34,780-8-0, representing the net demand, was better by Rs. 8,122 than the yield in the immediately preceding year. The several sub-heads composing the item are shown in the comparative table below:—

The loss under Cart tax of Rs. 3,350, occurred chiefly in the Bangalore, Shimoga and Chitaldroog Districts. The decrease is stated to be due (1) in the Bangalore District to the remission of cart tax in certain towns, where carts do not ply for hire; and (2) in the Shimoga District to the exemption of the agriculturists' carts in certain rural parts. No explanation has been offered for the falling-off in the Chitaldroog District.

The subjoined figures show the number of houses and other buildings, exempted from the Mohatarfa tax for the whole Province.

Classes.	Number of houses.	Percentage to total number exempted.

Houses on which loom tax is levied	22,079	**2·81**
Houses on which oil-mill tax is levied	2,642	**·33**
Total ...	787,271	**100**

The above leaves an aggregate of 179,424 houses subject to the taxation, which amount to 22·79 per cent of the total number exempted. No fewer than 20,000 houses as belonging to "Village Headmen and S'ettis" were brought under exemption in the Mysore District during the year under review. In explanation of this striking item, the Deputy Commissioner remarks as follows:—

"There is an increasing tendency in raiyats to build homesteads on their "lands, and permission has been freely granted in this matter under existing "rules. Whole villages, which have become insanitary from very long occupa- "tion and other causes have also been abandoned here and there and fresh vil- "lages built on healthy cultivated soil." This explanation is not clear as to why the number of houses to be exempted should increase. Probably the Deputy Commissioner means that the Raiyats' houses, entitled to exemption, have increased in numbers. This does not affect the revenue.

The Mohatarfa revenue assigned to the municipalities in the Province which were excluded from the total Mohatarfa demand for the past year, amounted to Rs. 1,75,892, as against Rs. 1,66,700 in 1891-92, giving an excess of Rs. 9,192.

The actual collections of the Mohatarfa Revenue and the uncollected balance at the end of the year under review are given below:—

District.	Collections on account of arrears and current demand.	Balance including arrears.
Bangalore	44,175	2,795

31. *Sáyer and Octroi.*—The receipts from Sáyer customs and Octroi during the past year amounted to Rs. 3,97,533, exhibiting a net decrease of Rs. 1,19,448 from the results of 1891-92, as shown in the following table:—

	1891-92 (15 months).	1892-93.
	Rs.	Rs.

Collections	5,16,494	**3,98,127**
Balance at the close of the year ...	854	**260**

The Sáyer revenue fell off in all the Districts, except Kolar; due in the main, it is said, to the diminished yield of Supári throughout the Province, and notably in Shimoga and Kadur, where the rot (Kolé róga) damaged the Supári crop; and the loss of revenue was the direct effect of the reduced produce. Government doubt whether the whole decrease in the Supári duty is due to diminished yield, or whether it may not be due to diminished sales. Deputy Commissioners are requested to compare the *Dástán* at the end of the year with that at its commencement and report where the decrease has chiefly occured.

32. *Salt.*—The revenue from the tax on the manufacture of earth-salt shows, unlike the previous year, an increase of Rs. 6,008, chiefly in Kolar and Tumkur, while the other Districts show fluctuations. The particulars of Demand, Collection and Balance under this head for the past two years are given below :—

	1891-92.	1892-93.
	Rs.	Rs.
Arrears at the beginning of the year	2,770	**1,531**
Demand for the year	16,003	**22,011**

Collections	17,242	**21,866**
Remissions	..	**2**
Balance at the end of the year ...	1,531	**1,674**

The balance uncollected at the end of the year under review was larger than in its predecessor, nearly three-fourths of it being in the Kolar District alone.

33. *Stamps.*—Under "Stamps" also, the year 1892-93 was prosperous netting an excess of nearly Rs. 97,000 over the revenue for the corresponding period (twelve months) of 1891-92 as detailed below :—

	1891-92 (12 months).	1892-93.
	Rs.	Rs.
General Stamp papers	2,37,303	**2,61,543**
Court Fees Labels	3,46,936	**3,85,565**
Receipt Stamps	11,813	**13,244**
Penalties	12,922	**45,584**
Total .	6,08,974	**7,05,936**

So far as the foregoing results indicate, the rise in the revenue under this head testifies to (1) the expansion of business transactions, and (2) a greater activity in ligitation. These effects usually accompany agricultural prosperity in the country. The large amount realized as duty on unstamped and insufficiently stamped documents and penalties levied, &c, also point to the fact that the people are further awakening to the requirements of the Stamp laws and remedying the imperfections in the records of their transactions under the old systems.

Regarding the classification of stamp papers and labels of descriptions sold in the year in question, the attention of the Deputy Commissioners is again directed to the observations contained in para 41 of the Review on the Revenue Administration Reports of 1891-92; for, none of the District returns received furnish the required classification.

REVENUE-FOREST.

Proceedings of the Government of His Highness the Maharaja of Mysore (Revenue-Forest),—dated 2nd December 1894.

No. 8961-70—R. 1359, DATED, BANGALORE, 2ND DECEMBER 1894.

ORDER.—After careful consideration of the re-organization scheme submitted by the Inspector General of Forests with his Memorandum of 15th September 1894, and after study of the scale in force in British India, the Government resolve that the superior appointments of the Mysore Forest Department should consist of :—

(1) Deputy Conservators in three classes, on Rs. 600, 500, and 400 a month.
(2) Assistant Conservators in three classes, on Rs. 300, 250, and 200 a month.
(3) Sub-Assistant Conservators on Rs. 100 a month, rising, after a sufficient period of probation and proof of capacity for efficient Forest work, to Rs. 150 a month.

The above appointments as regards salaries and status correspond to Executive Engineers, Assistant Engineers, and Sub-Assistant Engineers of the Department of Public Works.

2. The full sanctioned scale will be as follows :—

		Rs.	Rs.
I. Deputy Conservators—			
1 first class on	... ...	600	
1 second class on	... ...	500	
1 third class on	... ...	400

3 second class on Rs. 250	... ...	750	
4 third class on Rs. 200	... ...	800	
Total 9			2,150
III. Sub-Assistant Conservators—			
4 on Rs. 100 rising to Rs. 150	...		600
Grand total No. sanctd. 16	Total monthly cost	...	4,250

3. The establishment will ordinarily be employed as follows :—

The three Deputy Conservators for the charge of the important Forest Districts of Shimoga, Kadur, and Mysore.

Five Assistant Conservators for each of the other five Districts.

Two Assistant Conservators, one to help the Shimoga, and the other, the Mysore Deputy Conservator.

Two Assistant Conservators for Head-quarters, plantations, and special deputation.

The four Sub-Assistant Conservators to be as a rule attached to the important Forest Districts for learning Forest work and helping the higher Forest Officers, or employed on special deputation work, where qualified.

4. The full scale sanctioned in para 2 above will not be adopted till the present Officers qualify for promotion. The existing staff will be arranged as follows :—

			Rs.
I. Deputy Conservators—			
First class	Vacant		
Second class	1. Mr. C. E. M. Russell	...	500+50
Third class	1. Mr. T. Abdul Karim	...	400

On Rs. 100 each ...	1. Mr. K. Shamaiengar 2. Vacant 3. Vacant	}	...	300
Total ...	6			750
Grand Total ...	16	Monthly cost ...		3,600

5. For filling the two vacancies in the Sub-Assistant Conservators' grade, the Government have selected Mr. Theobald (a retired Officer of the Madras Forest Department and now employed as Head Master of the Mysore Technical school), and Mr. P. E. Benson. The appointment of the latter will be made after obtaining the previous consent of the Government of India under the Instrument of Transfer. Application for such consent will be made forthwith.

6. The promotions awarded to individual Officers in the list in para 4 above, are all based upon the Inspector General's report of their efficiency and good work. The Government, however, have not been able to accept that Officer's recommendations in respect of salaries to be given, as it is desirable that every Officer's advancement should be gradual. Mr. B. Ramaswami Iyer, Mr. B. Srinivasa Rao, and Mr. K. Shamaiengar have been very unfavorably reported upon by the Inspector General as regards their work and general efficiency, and accordingly in the award of promotions they have been superseded by others junior to them in the service. They will now be distinctly warned that if they do not show better work at the end of another year, the Government will be under the necessity of removing them from the Forest Department, and finding them, if possible, employment in the subordinate ministerial grades of the service on lower pay.

7. The Government accept Mr. Ricketts' recommendation for the promotion of Mr. J. J. Monteiro (First Class Ranger) to a special grade of Extra Assistant Conservator on Rs. 150, as an encouragement for good work in the subordinate Forest grades.

8. The Government are unable to sanction any addition to the present number of Rangers. They will give the new Sub-Assistant Conservators to employ them on a Ranger's work.

9. The Government accept the Inspector General's recommendation for the improvement of the present scale of Foresters. The scale in force and that now sanctioned are as follows:—

	Present scale No.	Sanctioned scale No.
First class on Rs. 30	2	3
Second class on Rs. 25	6	9
Third class on Rs. 20	12	15
Fourth class on Rs. 15	19	20
Fifth class on Rs. 10 ..	17	9
	56	56

10. All promotions now ordered shall have effect from 1st September 1894.

11. The Inspector General is requested to submit after the close of the present official year a report on the work done by each Forest Officer. Upon the receipt of such report, orders will be passed for filling up the vacancies among Deputy and Assistant Conservators.

T. ANANDA ROW,
Chief Secretary.

To—The Inspector General of Forests and Plantations in Mysore.
The Comptroller to the Government of Mysore.
The Deputy Commissioners of Districts.

READ:—

The following letter No. 628, dated 8th December 1894, from the Deputy Commissioner, Mysore District, to the Chief Secretary to the Dewan of Mysore.

I have the honor to state that some of the respectable raiyats of Kyatanhalli, Seringapatam Taluk, have resolved to form an Agricultural Bank on the same lines as laid down for the Bank at Palhalli. They met on the 5th instant at Kyatanhalli and unanimously resolved to start the Bank and adopted the rules and memorandum of association at the same meeting. The proceedings embodying the same and signed by all the members are submitted herewith.

2. There are now 19 members on the rolls and the rules provided are similar to those of the Palhalli Bank, excepting on the following points:—

Rule 9.—That interest should be recovered at the time of giving the loan.

Rule 12.—That loans on Promissory Notes should not exceed rupees 500.

Rule 22.—If any member repays the loan before the expiry of the fixed period, interest shall be refunded to such member for the remaining period at Rs. 4 per cent.

Rule 23.—A cash balance of Rs. 500 shall be maintained in the Bank, the excess being remitted to Treasury.

3. I beg that the Proceedings may be forwarded to the Registrar of Joint Stock Companies for registration (the registration fees will be forwarded to the Registrar separately), and that the formation of the Bank may be sanctioned and permission granted to give the Bank advances from the Seringapatam Taluk Treasury, not exceeding in the aggregate (Rs. 19,000) nineteen-thousand for lending to its members.

[*Translatati n.*]

Proceedings of a Meeting held on the 5th December 1894 at Kyatanhalli village, Seringapatam Taluk, for the establishment of an Agricultural Bank at Kyatanhalli, in conformity with the Rules published in the Mysore Gazette, under the scheme proposed on the subject by the Dewan in this year's Dasara Meeting.

Number of Members present, 19.

All present consented to the proposal made by M. R. Ry. Venkatramanaiya that M. R. Ry. Narasimhakrishnamachar should preside at the meeting.

1. *Name.*—The Bank shall be called the Agricultural Bank of Kyatanhalli in the Seringapatam Taluk of the Mysore District and registered in the office of the Registrar of Joint Stock Companies in Mysore, in accordance with the Indian Companies Act X of 1886, and come into operation from the 6th day of December 1894.—*Accepted.*

2. *Articles of Association.*—The persons who have signed these Proceedings shall be the members of this Bank.—*Accepted.*

3. Resolved that the number of members shall, for the present, be 19, and that others who may be declared by the members to be eligible for admission under these Rules may also be taken as members.—*Accepted.*

4. Members now admitted to the Association as well as those to be admitted hereafter shall each pay an entrance fee of annas 4 and submit also a written application for admission.—*Accepted.*

5. Five of the members of the Association shall be chosen as Directors for managing the affairs of the Bank and six shall be chosen as members of the Council for supervising the work.—*Accepted.*

6. *Mode of conducting business.*—The Directors shall conduct the business of the Bank in conformity with the arrangements made by the Councillors under the Bank Rules.—*Accepted.*

7. Three of the Directors and not less than five of the Councillors shall form a quorum. The Directors shall attend the Bank's office not less than twice a week and check the business of the Bank in all its branches and note the same in the minute book. The Councillors shall supervise the work once a month, *i. e.*, check all the dealings of the Bank since its last meeting and record suggestions as regards future transactions.—*Accepted.*

8. *Bank's transactions.*—The Bank shall carry on its dealings from the deposits made by Government as loans, at 4 per cent interest, as also from deposits made by others at the same rate of interest.—*Accepted.*

9. *Regulation of dealings.*—Dealings shall be carried on only between the members of the Association in the manner noted below; the amount of interest shall not be recovered at the time the loan is repaid, but shall be deducted from the amount of loan at the time of its grant.—*Accepted.*

1. On mortgage of immovable property.
2. On joint promissory notes.
3. On joint instalment bonds.
4. By a system of advances.—*Accepted.*

10. Interest shall be collected at the rate of 6 per cent per annum in the case of loans under clauses 1 and 3, at 7 per cent in the case of loans under clause 2 (joint promissory) when the amount is within Rs. 100 and at 6 per cent when it exceeds that sum, and in the case of advances under clause 4, one pie per day for every Rs. 20.—*Accepted.*

11. *Loans not exceeding* Rs. 1,000 per individual may be granted on the mortgage of immovable property or on personal security, subject to repayment within a period not exceeding 15 months. The amount of the loan shall not exceed ⅔ths of the estimated value of the property mortgaged.—*Accepted.*

12. *Promissory notes.*—In dealings of this kind loans not exceeding Rs. 500 may be granted on reliable security, subject to repayment within a period not exceeding 6 months.—*Accepted.*

13. *Instalments.*—In loans of this kind to be made on the mortgage of immovable property or on joint security, the amount of the loan may extend to Rs. 500, subject to repayment in instalments not exceeding ten.—*Accepted.*

14. *Advances.*—Loans not exceeding Rs 25 may be granted to one person or several persons jointly, subject to repayment within a period not exceeding 90 days. The period allowed for repayment of any loan shall in no case exceed fifteen months including renewals.—*Accepted.*

15. The liability of a member shall not exceed Rs. (2,000) two thousand, including loans taken by himself as well as those granted to others on his security; or an amount not exceeding ⅔ths of the estimated value of his property may be granted on mortgage of immovable property.—*Accepted.*

16. *How to obtain a loan.*—Any member desirous of obtaining a loan may apply to the Directors verbally or in writing for the same. In noting down such statements, the Directors shall clearly mention the object for which the loan is raised and the credit, &c., of the applicant and his surety.—*Accepted.*

17. Both the applicant for the loan and his surety should state the truth regarding their solvency, as also the details of their property, &c., when questioned by the Directors. They shall be held responsible for any falsehood or defects in their statements. The Directors shall, as far as practicable, enquire into the truth of the said statements and thereafter sanction the loan.—*Accepted.*

18. *Accounts to be kept.*—The accounts detailed in the schedule, to be hereafter drawn up, shall be regularly kept in the Bank. These are liable to be checked by Auditors nominated by Government every term.—*Accepted.*

19. *Stock in Bank.*—Title-deeds and other documents shall be kept only in the Bank's office. Officers authorized by Government and the members of the Bank may inspect these accounts., title-deeds and other documents as well as the cash balance.—*Accepted.*

20. *Disposal of interest.*—Interest due on sums obtained from Government or from others shall be paid to them either according to the term fixed or within the time agreed upon with the depositors.—*Accepted.*

21. Establishment charges shall be defrayed at the close of each month.—*Accepted.*

22. If the member who has obtained a loan repays it prior to the expiry of the period allowed for repayment, interest for the remaining period at the rate of 4 per cent per annum shall be refunded.—*Accepted.*

23. *Cash to be maintained in the Bank.*—All sums exceeding Rs. 500 remaining in the Bank shall be remitted to Government.—*Accepted.*

24. *Object of the loan.*—The object of the loan shall be enquired into before it is granted, and if the amount is not spent for the express purpose for which it is borrowed, the same shall be recoverable on a month's notice.—*Accepted.*

25. *Purposes for which loan may be raised.*—These shall be restricted to the purchase of manure, seed, cattle, agricultural implements and other appliances, payment of cooly and other charges of cultivation and of kandayam, the maintenance charges of the cultivator during the cultivating season, the redemption of property from hypothecation or mortgage and similar other purposes. The loan shall not be made unless the means for its repayment within the fixed time is seen to exist.—*Accepted.*

26. *Punishment in the case of failure to comply with the terms of the contract.* In all cases, a violation of the conditions of the loan will disentitle the debtor from obtaining further loans. This shall be strictly enforced.—*Accepted.*

27. *Reserve Fund.*—This shall comprise all surplus profits excluding the Bank establishment charges and interest on deposits.—*Accepted.*

28. This fund shall be utilized for meeting unforeseen losses sustained by the Bank in its dealings. The members shall not be entitled to the said fund if the Bank is wound up. But it may be used by the members of the Association for a similar Bank in existence, or one that may hereafter be established, or for some other charitable work within the limits of the Bank.—*Accepted.*

29. Members shall render their services gratuitously. The establishment and other charges shall, as far as possible, be moderate.—*Accepted.*

30. *Time of meetings.*—Balance sheets shall be prepared once in every six months and the approval of the General Meeting obtained therefor.—*Accepted.*

31. *Proposition notice.*—If any Council member wishes to submit a new proposition, a week's notice shall be given to all the members prior to the meeting.

A. If any member has anything to propose in the General Meeting, fifteen days' notice shall be given prior to the holding of the meeting.—*Accepted.*

32. *Retirement of Members.*—If any member is desirous of severing his connection with the Bank, he must present a rajinama to the Directors and obtain the sanction of the Councillors therefor. If the resignation is accepted, the member so resigning will not be responsible for dealings undertaken subsequent to the date of his resignation. His liability extends however for two years thereafter in regard to previous dealings. If the Councillors are disinclined to accept, such resignation, a General Meeting shall be held and the matter disposed of in conformity with the resolution arrived thereat. If one-half of the total number of members do not consent to such member severing himself from the Association, the Association may be wound up.—*Accepted.*

33. 1. The Bank Office shall be held in Kyatanhalli Mari Dévéganda's house No. 88. *Accepted.*
2. Narasimhakrishnamachar, Venkatramaniaya, Mari Deveganda and Siddegauda shall be Directors.—*Accepted.*
3. Venkatakrishnappa, Madri Narasimhachar, Timmappaiya, Timmegauda, Gavigauda and Javaregauda shall be Councillors.—*Accepted.*
4. Narasimhakrishnamachar shall be the Treasurer and conduct the business of the Bank under orders of the Directors, be in charge of cash, accounts, and documents and carry on dealings.—*Accepted.*
5. As all the members of the proposed Bank have met and agreed to these resolutions, a further meeting for confirming them is considered unnecessary and these shall be accepted as the Articles of Association and final Rules of the Bank.

PETITION.

Proceedings of the Government of His Highness the Maharaja of Mysore (Petition),—dated 8th December 1894.

No. 9776-84—Pet. 962, dated, Bangalore, 8th December 1894.

Order.—In continuation of Government Proceedings No. 5062-96—Pet. 468, dated 15th September 1893, the following instructions are issued for strict guidance:—

1. All paper used for Vernacular correspondence between Amildars and Deputy Commissioners should be of thick white French Foolscap or printing paper 12 lbs Foolscap size, *i. e.*, 13½″×17 ″or 13½″×8″ when folded. Statements of accounts should also ordinarily be on printing paper of the same size, and important statements may be written on thicker paper of demy or medium size, but the breadth and length of statement should on no account exceed the dimensions of a single paper used. When all the columns of a statement cannot be conveniently brought on one side of the paper, the statement must be written in Book form.

2. Papers sent by Amildars to Shekdars and Shanbhogs and *vice versa* may be about half the size mentioned above, *i. e*, 8½″×6¾″. For this purpose, printing paper alone should be used and cut into the size above specified.

3. A sample of the paper to be used hereafter is herewith sent to each Deputy Commissioner who should send in his indent to the Superintendent, Government Stationery, for the quantity required.

4. Papers written after 1st July 1895 will be returned if they are not of the prescribed size and kind.

5. Petitioners should be advised to write their petitions on paper of Foolscap size.

EDUCATIONAL.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Educational)—dated 6th December 1894.

READ :—

Budget Estimates of the Village School Fund for 1894-95 prepared by the Education Secretary.

C. No. 123, DATED 6TH DECEMBER 1894.

ORDER.—1. *Opening balance.*—The balance at the credit of the Village School Fund on the 1st July 1894 was Rs. 2,49,998. From this amount, Government of India securities of the value of Rs. 2,00,000 were purchased in August 1894 in accordance with Government Order C. No. 166, dated 17th January 1894. The cost of these securities, inclusive of anticipation interest amounting to Rs. 7,756, was Rs. 2,14,559. The cash balance available for current expenditure during 1894-95 was therefore Rs. 35,439.

2. *Receipts.*—The estimated receipts of 1894-95 are Rs. 2,20,759 as detailed in the annexed statement. The total sum available for expenditure in 1894-95, inclusive of the cash balance of Rs. 35,439, is Rs. 2,56,198.

3. *Expenditure.*—By Order C. No. 113, dated 19th November 1894, the charges amounting to Rs. 5,007 of nine Kannada Schools which are not at the head-quarters of Taluks or Sub-Taluks were transferred to the Village School Fund. By para 3 of the same order and Order C. No. 116 of the 4th December 1894, the cost amounting to Rs. 2,040 of six English Schools situated at Melkote in Seringapatam Taluk, Tyamagondlu in Nelamangala Taluk, Yelahanka in Bangalore Taluk, Saligram in Yedatore Taluk, Birur in Kadur Taluk, and Sarjapur in Anekal Taluk, was also transferred to the Village School Fund. At the same time by Order No. 112, dated 19th November 1894, it has been directed that the contribution of Rs. 15,981 made from the Village School Fund to the Provincial Funds for the maintenance of certain schools shall cease from the 1st July 1894. Including the cost amounting to Rs. 7,047 of the schools recently transferred from the Provincial Funds to the Village School Fund and excluding the contribution of Rs. 15,981 from the Village School Fund to the Provincial Funds, the total amount of expenditure sanctioned up to date is Rs. 1,90,462, as shown in the following table. On account of the increase in the number of schools, a sum of Rs. 4,000 is sanctioned for the purchase of books, and a similar sum for the purchase of furniture as a recurring charge. The provision of Rs. 950 for prizes is sanctioned as a recurring charge. The recurring provision for buildings is taken to be Rs. 5,000. The following fresh charges of a recurring nature are sanctioned. Rs. 3,456 for new hands and increases in Hobli and Taluk Branch Schools, Rs. 6,312 for New Schools, Rs. 1,500 for grants to Halli Mathas, Rs. 960 for grants to Night Schools, Rs. 612 for new hands and increases in the Normal School, Rs. 287 for rent and contingencies, and Rs. 120 for increases to two writers in the Local Examination Office. At the same time as the annual provision of Rs. 5,000 is insufficient for buildings, an additional sum of Rs. 13,000 shall be provided for them during 1894-95. The additional charges sanctioned for 1894-95 amount to Rs. 26,187. The grand total of all charges sanctioned for 1894-95 is Rs. 2,16,649.
